Committed to Excellence

A LEGACY OF CREATING SHARED VALUES

WELCOME TO ZHOUR

A Legacy of Creating Shared Values

ZHOUR traces its first beginnings more than two decades ago as a trading business predominantly in commodities. Over the years, the company has metamorphosed as per the needs of the market with an unwavering vision to become the leading distribution and marketing company of both Branded and Commodity products in Sudan and one of the largest in North Africa.

ZHOUR's proud history reveals a solid foundation, continuous focus on innovation and expansion. With an extensive product range, ZHOUR's reach has expanded over the years with a strong emphasis on building and selling brands.

ZHOUR's portfolio of products are delivered in every corner of Sudan, which bears testimony to the company's exhaustive knowledge and market expertise in Sudan. Being a true dignitary in marketing and distribution, ZHOUR aims to push boundaries by exploring and adding innovative and value-added branded products in its quest to not only satisfy consumers' ever-changing habits and demands, but to raise the quality bar in a rapidly evolving market.

WHAT WE DO

ZHOUR is an International company specialized in importing, sourcing and distributing of fast moving consumer goods.

Our experience and knowledge base has been established and building since decades. We take a global view when sourcing products at a competitive price range for local and international markets. In Sudan, we represent international brands and promote locally made products for export, introducing and developing sales of new consumer products.

We form strategic alliances with our clients, sourcing branded and private label goods for them and work closely with our local and international manufacturers to bring a broad range of products to the market.

QUALITY MANAGEMENT SYSTEM

Our QMS supports our philosophy to deliver excellent value to our customers through a continued effort to improve our products and services. We are confident that the service and materials we offer will provide the solution required for your applications.
